DISCOUNTING POLICY

Due to the staged availability of the middle school resources, the Discounted Program Prices will still apply for those ordering part of the program prior to the availability of the remaining resources.

For example: those ordering the Classroom Resource now but wishing to take advantage of the Program One discount can order the Professional Development Resource (PDMS) within 30 days of its release date and the discount amount will be applied to the cost of the PDMS. So order the Classroom Resource now at the list price of \$280, and when ordering the PDMS the discount will be applied to the PDMS list price (namely \$180 less the \$51 discount), so the total paid for both items will be \$409 (the discount price for Program One).
